

One thing I ave to say you guys are completely unconstitutional. I want to see all that shit that you guys censor out. Why do you cesor all the good stuff??? I mean come on if parents would actually be parents instead of dead beats such as yourself and all of your family then I could see all the good stuff but no you are going with the parents and makinh television a babysitter for them. You should be put out of business and have every possession you own taken away and given to people who deserve them and not you. you should be naked and left for dead...Thank You and maybe I will see you naked and left for dead....that would be cool
